## HORMONE BALANCE FOR WOMEN

After the birth of my son, I was very angry and depressed. I tried medication and therapy for nine months, but nothing could make me feel better. After doctors told me there wasn't much they could do, I decided to do research about natural supplements to regularize hormones and I came across **FEMMENESSENCE BY NATURAL HEALTH INTERNATIONAL**.

After just three days, I noticed a dramatic change in my mood and energy. And just three months later, I made a full recovery and I have been doing great ever since. I recommend it to anyone whose hormones are out of whack or whose energy levels are almost nil. For me it was a lifesaver!
